Dispute Resolution Mechanism for Regulatory Activity Assignments

This dispute resolution mechanism addresses complaints regarding regulatory activity assignments through the line management in the Canadian Nuclear Safety Commission (CNSC) Operations Branch. For instance, it would include disputes over the assignment of CNSC resources and the base and variable hour values in formula fee calculations.

1. Any licensee wishing to dispute the regulatory activities assigned to them by CNSC staff under the *Cost Recovery Fees Regulations* should contact the Director General responsible for their licensed facility or activity, orally or in writing, to discuss the issue.

CNSC Directors General are responsible for licensed facilities/activities as listed below:

<ul style="list-style-type: none">• Bruce Nuclear Generating Stations• Darlington Nuclear Generating Station• Gentilly-2 Nuclear Generating Station• Pickering Nuclear Generating Stations• Point Lepreau Nuclear Generating Station	Greg Rzentkowski greg.rzentkowski@cnsccsn.gc.ca
<ul style="list-style-type: none">• Nuclear Substance and Radiation Devices• Class II Facilities and Dosimetry Services• Packaging and Transport	Peter Fundarek peter.fundarek@cnsccsn.gc.ca
<ul style="list-style-type: none">• Uranium Mines and Mills• Nuclear Research and Test Establishments (e.g. Atomic Energy of Canada)• Non-Power reactors (e.g. Slowpoke Reactors, MAPLE Reactors)• Class I Particle Accelerators (e.g. TRIUMF)• Fusion Facilities• Processing Facilities (e.g. MDS Nordion)• Waste and Decommissioning	Peter Elder peter.elder@cnsccsn.gc.ca

2. If the issue is not resolved to the licensee's satisfaction by the appropriate Director General, the licensee will be asked to document the issue and submit it for consideration to:

Ramzi Jammal,
Executive Vice-President,
Operations Branch
ramzi.jammal@cnsccsn.gc.ca

The Executive Vice-President, Operations Branch, will investigate the issue and give the licensee an opportunity to present its case in person or in writing. Following this, the Executive Vice-President, will respond in writing to the licensee.

This process only applies to the assignment of regulatory activities, not to the administration of fees ([Dispute Resolution Mechanism for Fee Administration](#)).
